THE PURPOSE

NEID GLOBAL

GROUNDING IN COMMUNITY

NEID Global is a unique peer-to-peer learning network based out of Boston that serves a community of passionate & dedicated international philanthropists across the world.

For nearly 15 years we have been creating community among globally focused donors to help educate and connect them so that they are able to be more intentional in their philanthropy as they seek to address the world's big problems.

At NEID Global we start with humility, with open minds and hearts. We strive to support international donors and their grantees in their efforts to create transformational social change through over 50 annual educational programs, strategic networking opportunities and ample access to information and expertise on the latest trends in international philanthropy and international development. NEID members foster equitable partnerships, learn from each other, connect deeply with one another, inspire each other and act together to build a world where everyone can thrive.

Many of our members say that they have found not just colleagues at NEID Global, but also lifelong friends. **Our members ignite our community.** We could not be more grateful to all those that have helped us grow over the last 15 years into what we are today and we could not be more excited to see what the future will bring.

OUR COMMUNITY

NEID GLOBAL 2017-2021

NEID Global began as New England International Donors (NEID) in 2008 to create a supportive learning community for international donors in New England and to inspire increased international giving. In 2017, NEID hired a small staff to run and grow the network that was housed and incubated at The Boston Foundation and The Philanthropic Initiative. **In 2019, NEID became an independent 501c3.**

The pandemic has pushed NEID Global into the virtual space, allowing our offerings to be available to internationally focused donors across the country and around the globe. It also has enabled us to create a more direct link between donors and between donors and grantees. **The changing scope of our membership is what has led us to change our name to NEID Global.** NEID now stands for Network of Engaged International Donors.

Since 2017 we have hosted 230 educational programs, 9 Giving Circles, 4 Affinity Groups and 2 International Symposiums. We have also created a Member Portal where our NEID Global members are able to connect with one another, browse all past event recordings, utilize a Resource Hub to increase their impact, find grantees and stay up to date on current international challenges.

Our vibrant community has allowed us to expand our mission to convene and empower donors to address the world's big problems across the globe. Our members are individually engaged in supporting all 17 of the United Nations Sustainable Development Goals (SDGs) and are funding innovation across a broad spectrum of development needs. **In the past 5 years we have championed diverse community voices from across the globe in addition to leaders such as Malala Yousafzai, Angélique Kidjo, Cheryl Dorsey, Kennedy Odede, Jacqueline Novogratz and Amanda Gorman.**

INTERNATIONAL GIVING CIRCLES

MODEL

Since 2017, our international Giving Circles have been key to our programming and the only manner through which NEID Global allocates grants. We began offering Giving Circles to provide our members with opportunities to take a deep dive into particular issues with peers. For new donors, the Circles serve to introduce them to international grantmaking. For seasoned donors, the Circles offer collaboration with peers and grantees and possible long-term partnerships.

Democratize & diversify philanthropy

Increase local giving & involve new donors

PURPOSE

Maximize impact of funds through collaboration and partnerships

We continually restructure our Giving Circles to embrace a more equitable culture. We have streamlined our proposal process, incorporated interviews with interpretation and open conversation and have hosted a circle solely focused on racial equity. Our Circles aim to bring in diverse voices and perspectives from the ground.

NEID GLOBAL

GROWING AND INVESTING GLOBALLY, TOGETHER.

"There is no better place to learn about global philanthropy than NEID Global! They set an example for a humble and down-to-earth approach as learners rather than experts. They are among the most responsive and action-oriented groups, acknowledging the need to dismantle effects of colonization and hierarchy."

"We really started developing our philanthropic approach with our first NEID Giving Circle. We are the philanthropists we are today because of NEID's Giving Circles and events."

N

In the coming years NEID Global's efforts will be driven by the following three goals:

ENDLESS POSSIBILITIES

NEID GLOBAL

E

To reach and inspire over 500 donors, grant-makers, and social investors across the country and to support their desires to become effective global philanthropists who create lasting change.

Our effort to expand NEID Global's reach will bring more internationally focused donors into a common community coast-to-coast. Diversifying our staff, board and membership will be a major goal as we grow.

I

To connect and deepen a sense of community among global donors, grantmakers and investors.

NEID Global is known for the community it creates and its high-touch engagement with its members. We will continue to build out these deep and trusting relationships.

D

To expand our virtual and in-person programmatic offerings to educate and equip globally minded donors, grantmakers and investors, so that they increase their giving and increase their effectiveness.

Philanthropists become 10 times more effective when they understand the local context and actions of others working where they intervene. They also become more impactful if they understand systems approaches, gender and racial equity lenses & how to effectively partner with grantees and other donors.
